In your opinion would adequate lighting and presence of police patrols stopped attackers?

Male Female

In your opinion, will cases of attacks on students lead to students leaving to study in some other city?

Do you think that police patrols and better street lighting would help students to feel safe at night?

Additional comments on the security situation of students:

I am sure that presence of police patrols within the student center would improve students' safety

The situation is very bad, changes are required

We came here to study, not to be scared

The situation is alarming

It is necessary to respect the law

Very bad situation, students are very important for this city, they should be protected

More guards should be put around the city, particularly within the Student Center

Thank you for your attention!
