According to your opinion, what broader Albanian community thinks about the Agreement on the Judiciary?

The majority of respondents don't know what Albanian community thinks; and they are not interested in what the Albanian community thinks.

A number of respondents believe that the Albanian community thinks positively about The Agreement on judiciary, because the agreement "helps in framing the Kosovo's independence and spreading its sovereignty"; or, on the other hand, because the agreement helps Kosovo on its path to the EU.

A number of responders considered that the Albanian community thinks negatively about the agreement "because it was signed in Belgrade's favor"; because they are not enthusiastic with the rule of law which will limit the privileges that majority community has in Kosovo; because Kosovo is "losing sovereignty" if committed to the agreement; because the agreement is not constitutional, "which can be concluded on the basis of opposition protests," because they are not happy with specific agreement on a number of judges / prosecutors on the basis of ethnicity; because the agreement is "not transparent and thus serves to protect people from north Kosovo."

The remaining respondents felt that the Albanian community does not know enough about the agreement ("I believe that if Albanian community is sufficiently informed about the content of the agreement, it would mostly support it, because according to the agreement the Serbia's judicial institutions will be abolished and integrated in the judicial system of Kosovo")... "But, anyway, no one asks them for opinion".

According to your opinion, what broader Serbian community thinks about the Agreement on the Judiciary?

"Serbian community "doesn't trust" in the Agreement on judiciary and its implementation, Serbs are "scared", "skeptical" and "confused". They do not have enough information and "no one asks them for opinion."

The majority of respondents believe that the opinion of the Serbian community about Agreement on judiciary is negative because "it leads to the extinction of the Serbian institutions," that it is unconstitutional; that although the rule of law is necessary, the application of this agreement will not provide it to the citizens; the citizens' lives will not be improved because of: possible abuse of the agreement by Pristina, political interference, lack of independence and impartiality of judges; because Serbian judges in the jurisdiction are given only the first instance practice etc.

Those who believe that the Serbian community thinks positively about the Agreement on judiciary, are stating the following reasons: the implementation of the Agreement on Judiciary will create new jobs, improve the position of Serbs, better regulate the law, it will ease and improve the daily lives of citizens in the North Kosovo; Serbs will finally be able to exercise their rights.
