

INITIATIVES

Under the project "Promoting Interethnic Dialogue in Local Government," funded by the NED, initiatives were implemented in the municipalities of Zvečan and North Mitrovica: Through joint initiatives, such as environmental protection projects or cultural events, communities show that they are capable of overcoming differences and working together to build a better future for all.

1.

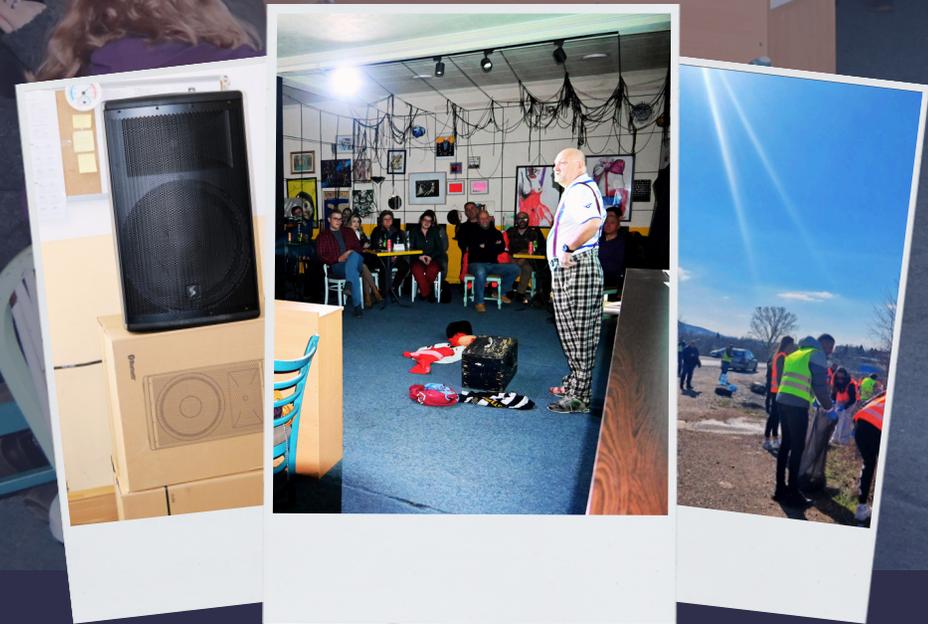

ENVIRONMENTAL IMPROVEMENT FOR A CLEANER TOMORROW

The goal of the cleaning initiative was not only the joint arrangement of a part of the environment along the main road but also to draw attention to the problem of improper waste disposal in the Mitrovica and Zvečan region. The event emphasized that environmental issues affect everyone, highlighting the need for cooperation in facing common challenges.

Promoting interethnic cooperation through environmental initiatives not only benefits the environment but also fosters a sense of togetherness and understanding among communities.

STEPS TOWARDS A JOINT FUTURE

Initiatives for inter-ethnic dialogue in local self-government

2

SATIRICAL REFLECTION ON POLITICAL REALITY

The play "With what, with whom in the EU???" by author and director Dragan Tešić was performed at the Kadri Kadriu Cultural Center and the Private Cultural Center "Akvarijus." This political satire is the most successful play of the Draft Theater from Tuzla (BiH) and speaks about the challenges and opportunities that come with a possible entry into the European Union.

The play was an opportunity for people from different communities to come together and enjoy the same event, thereby connecting these two cultural centers through a shared cultural experience and support for cultural diversity.

DONATION OF EQUIPMENT FOR ELEMENTARY SCHOOL ISA BOLJETINI

The Isa Boljetini Elementary School was chosen by ACDC for donation because it is the largest school in the municipality of Zvečan attended by students from non-majority communities in the North. Audio equipment was donated, including mixers, speakers, cables, and mounts..

3.

The donation of audio equipment will enable the school to enhance the quality of teaching and activities organized for the students. The new speakers will improve the school's sound system, contributing to better delivery of lectures, presentations, and cultural events.

In addition, another initiative involved the donation of new doors, which will improve the safety and functionality of the school premises, creating better working conditions.
